TECHNICAL SKILL

WORK EXPERIENCE

Software Engineer

Jan, 2021 - Present

Justdial, Bangalore

- Led the design and development of robust backend APIs to enhance communication between client applications and server-side functionalities.
- Collaborated with cross-functional teams to ensure alignment of API design and integration with overall application architecture and business requirements.
- Designed and implemented RESTful APIs adhering to industry best practices, ensuring efficient data exchange and seamless functionality execution.
- Integrated APIs with external services and third-party APIs, enriching application features and user experience.
- Implemented secure authentication and authorization mechanisms (OAuth, JWT) to safeguard API endpoints from unauthorized access.
- Utilized SQL and NoSQL databases for seamless data storage, retrieval, and manipulation within API workflows.
- Devised comprehensive error handling and logging strategies, facilitating prompt issue diagnosis and resolution.
- Conduct unit testing to ensure the reliability, correctness, and stability of the implemented features. Implemented error boundaries to handle and prevent bugs, resulting in a robust and bug-free healthcare product for Justdial.

PROJECTS

Product Name: NatureCaptures
